I want to make sure the river cleanup is good for the environment and jobs.

I support a thorough cleanup plan for the Willamette River. It's time to get started on this long overdue project. Some restoration of the river to its original state will happen over time, just like when a dam is removed or part of spawning beds are recreated. We must protect health, recreation and wildlife in our area.

Please support the river cleanup and our health but also to make sure harbor industry jobs don't go away.

Sincerely,
